Dunedin resident and independent Democrat, Ms. Samm Simpson qualified in May 2006 with over 4,000 voter signed petitions as a candidate for Congress in Florida's 10th Congressional District. Voters now have a clear choice between candidates in November as Simpson's run for public office is fueled by a deep concern about the expansion of Presidential powers and Constitutional rule of law, the expanding federal deficit, the need to transform our energy policy and change our course in Iraq.
